-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 5, 8 and 9 are rejected under 35 U.S.C. 102() as being clearly anticipated by Iwaki (U. S. Pat. No. 5,840,251).

Re claims 1 and 8 for example, note the Iwaki is cited disclosing a cleaning device which cleans a treatment portion (G) of a medical instrument, comprising: a cleaning cover including a containing portion (1) which surrounds the treatment portion and which contains the treatment portion, and an insertion opening (1a) via which the treatment portion is inserted into the containing portion; an engagement portion (1c) which engages with the medical instrument including the treatment portion inserted in the containing portion via the insertion opening and which holds the medical instrument in the cleaning cover; a water supply port (5) which is disposed in the cleaning cover and which communicates with the containing portion and which supplies cleaning water into the containing portion; and a drain port (1b) which is disposed in the cleaning cover and which communicates with the containing portion and via which the cleaning water in the containing portion is drained to the outside of the cleaning cover. Re claim 5, note that Iwaki discloses the cover as transparent (see claim 7).

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 1746

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 3 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Iwaki in view of either Parker et al. (U. S. Pat. No. 5,425,815) or Gobbato (U. S. Pat. No. 5,961,937).

Claim 3 defines over Iwaki only in the recitation of the plurality of water supply nozzles formed on an inner wall of the containing portion. Parker and Gobbato are each cited disclosing the concept of the plurality of the spray nozzles as claimed. It therefore would have been obvious to one having ordinary skill in the art to modify the device of Iwaki, to include a plurality of nozzles as taught by either Parker or Gobbato, for the purpose of enhancing the cleaning process as is common in the art. Re claim 4, note that Gobbato discloses the coaxial arrangement.

5. Claims 6 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Iwaki in view of either Parker, Jr. or Gobbato.

Re claims 6 and 7, Iwaki, Parker and Gobbato are cited as applied to the subject matter of claims 1, 3 and 4 above.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Campbell, Bowman et al., Labib et al., Halsted et al., Griffiths, Bowman et al., note the cover means.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to FRANKIE L. STINSON whose telephone number is (571) 272-1308. The examiner can normally be reached on M-F from 5:30 am to 2:00 pm and some Saturdays from approximately 5:30 am to 11:30 am.
